---

### **Statement of Issue:**

This agenda Item seeks Board approval to sell surplus equipment, which is either replaced or no longer in service. This request also seeks approval to sell one vehicle from another Department under the Board of County Commissioners.

### **Background:**

The Public Works Department replaces equipment as needed due to them reaching their useful life cycle by incurring excessive repair cost or obtaining high mileage. Public Works has found that disposing of unneeded equipment and vehicles by auction to be the best alternative financially.

The replaced equipment / vehicles in the past have been sold at public auction and the revenue returned to the Transportation Fund. The following Public Works equipment /vehicles have been replaced and are ready to be eliminated from the Public Works inventory:
